## Professional Summary

Laravel Developer with 4+ years of experience designing and deploying scalable web applications. Expert in Laravel, Livewire, Filament, and PHP with deep knowledge of REST APIs, MySQL, PostgreSQL. Proven ability to optimize performance, implement microservices, and deliver enterprise-grade ERP/CRM systems. Strong in debugging, clean code practices, and cross-functional collaboration.

## Technical Skills

- **Languages:** PHP, JavaScript, Dart , Python
- **Frameworks:** Laravel, Flask, Livewire, Flutter, Vue.js
- **Databases:** MySQL, PostgreSQL , SQLite
- **Version Control:** Git
- **Technologies:** REST APIs, GraphQL, Filament
- **Frontend**: Bootstrap, Tailwind CSS, Alpine.js, jQuery
- **Other:** Unit Testing , Debugging

## Professional Experience

**Linkway Software Solutions** - Dubai , UAE
Date: Nov 2022 - Aug 2025

- Built enterprise-level CRM & accounting systems with Laravel & Livewire.
- Implemented microservices improving scalability & system reliability.
- Optimized MySQL databases, enhancing query performance.
- Led adoption of **clean code practices, Git workflows**, reducing deployment errors.

**SoftInnovation Sdn Bhd** - Selangor , Malaysia
Date: Sep 2021 - Oct 2022

- Delivered ERP and CRM applications using Laravel, PHP, MySQL.
- Developed responsive Laravel-based portals improving user engagement.
- Integrated backend APIs with Flutter mobile apps.

## Projects

- **Warehouse Stock Management App**
  - Developed a **Flutter mobile app** with **SQLite** for offline inventory tracking. Integrated with **SAP** through a **Laravel backend API**, enabling real-time synchronization of warehouse stock and ensuring accurate product availability across platforms.
- **Eazy Project – All in One ERP**
  - Comprehensive CRM/ERP platform with **multi-company support** and integrated communication via **WhatsApp & SMS APIs** (Laravel, Livewire, MySQL).
- **License & Document Expiry Notification System**
  - Automated OCR-powered system for document expiry tracking with proactive **multi-channel notifications** (Laravel, Filament, Twilio, Google Vision API).
- **Invoice & Quotation System**
  - Developed a Laravel-based system to generate and manage invoices and quotations with PDF export, automated numbering, and client management features.
- **INJAS**
  - Inventory & voucher redemption platform with analytics dashboard.
- **SISB Financial Software**
  - ERP modules for financial operations.
- **Dynamic Websites (Multiple Projects)**
  - Built and deployed multiple dynamic business websites with Laravel, ensuring scalability, SEO optimization, and user-friendly interfaces.

Portfolio: **mohamedanoof.in**

## Education

- **Bachelor's Degree in Computer Science And Engineering**

  APJ Abdul Kalam Technical University (2017-2021)

## Research

- Dark-Net Ecosystem and Cyber-Threat Intelligence (CTI) Tool
- Currently researching: Common Security Vulnerabilities in Modern Web Frameworks (Laravel, Django, ASP.NET, etc.) and Effective Mitigation Techniques

## Interests

- Reading , Swimming , Playing Football , Listening to Music
